

What's Holding Up the Second Yamara™ Book?

We get asked all the time when we're going to get it together.
In fact, there are several reasons, all of which make great excuses:

7% U.S. ink reserves
at 20-year low

8% One was published;
Nêl ate all copies

12% Arcalula was always the sister
that got the most attention

23% Waiting for Wizards of the Coast to break the law

14% Public not ready to accept storylines
without muskrats

9% Joss Whedon stole
all our new dialogue

16% Not a relevant question to a time-traveller

11% One is available for \$5000;
Allow 6 months for delivery
